

About Hackwave

Hackwave 2.0 is the second edition of our flagship national hackathon, building on the momentum of last year's resounding success.

This year, we're taking things up a notch, empowering students to collaborate, create, and compete across the most dynamic domains in tech:

AI/ML, Web3, Blockchain, Android, and Web Development.

With a sharper focus, bigger vision, and broader outreach, Hackwave 2.0 is all set to spark innovation at scale and become a launchpad for the next generation of builders and changemakers.

Hackwave 1.0 Recap

- **850+ registrations** within a **span of 2 weeks**
- **200 shortlisted** participants, from **43 colleges** across India
- **200k+** Social media impressions (LinkedIn & Instagram)
- **20,000+** impressions on **Unstop**
- ₹1 lakh+ prize pool
- Sponsored by

What's New in Hackwave 2.0

Hackwave 2.0 isn't just a sequel, it's a level-up.

This year, we're expanding our tracks, extending our reach, and dialing up the energy. What started as a promising campus initiative now returns with sharper focus, louder momentum, and a stronger national presence.

- **2000+ expected registrations** through nationwide outreach
- **200 Participants** for the offline round
- Participants from **50+ colleges across India**
- A refined **two-round format** that filters quality from quantity

Date: 23rd to 25th August 2025

Duration: 36-hour offline hackathon

Venue: Chameli Devi Group of Institutions, Indore

Hackwave 2.0 isn't just bigger, it's more intentional, more electric, and built to leave a mark.

Hackwave 2.0 Format & Participation

Hackwave 2.0 follows a high-intent, two-phase structure built to identify not just coders, but creators.

Round 1

- Online Round
- 2000+ registrations
- elimination Round

Round 2

- Offline Round
- 200 Selected participants

Round 1: Online Project Submission

The initial online round invites participants to introduce themselves and submit a pre-built project. This project should showcase their skills, curiosity, and problem-solving mindset. We're targeting **2000+ registrations** from across India for this round.

Round 2: Offline Finale

The top **200 participants** from Round 1 will be shortlisted and invited to an on-ground final showdown. A **₹500 entry fee** applies only to those selected for this final, offline round.

Team Guidelines

- Each member must be a current college student.
- Teams must consist of **3–5 members**.

About the Organizers

The Team Behind Hackwave

Echelon Dev Society (EDS) isn't just a tech club; it's a student-led engine of ambition, built to challenge norms and shape the future of campus innovation at CDGI.

We're the ones who ask what's next and then build it. From **high-impact hackathons** to **lightning-fast sprints** and **idea-driven meetups**, EDS runs on momentum. Every event we create breaks comfort zones, sharpens skills, and pushes students to think, build, and lead.

Our culture is bold, fast-paced, and unapologetically hands-on. We don't just explore tech – we live it, question it, and reshape it.

With a track record of high-engagement events and a growing presence in the national student dev circuit, EDS continues to raise the bar, one initiative at a time.

Why Sponsor Hackwave 2.0?

Hackwave 2.0 brings together sharp minds, real tech, and national visibility, making it a strategic opportunity for brands looking to engage with the next wave of talent.

- **Brand Exposure:** Thousands of students, digital campaigns, event branding, platform integrations (LinkedIn, Instagram, Unstop).
- **Talent Discovery:** Connect with handpicked student innovators (hires, ambassadors, collaborators too!).
- **Campus Presence:** Brand at center of student innovation, leadership, building trust.
- **Product Testing:** Participants use your tools/APIs for real-time feedback, tech in action.
- **Purpose Partnership:** Support learning, creativity, community, strengthen developer ecosystem presence.

Audience & Reach

Hackwave 2.0 offers sponsors direct access to a curated, high-intent audience including the builders, thinkers, and emerging leaders of tomorrow's tech industry.

Who You'll Reach:

- College Students from top-tier institutes across India
- Developers, designers, and entrepreneurs actively involved in projects, competitions, and campus innovation
- Community-first learners who value brands that empower and engage

Where You'll Be Seen:

Our presence spans LinkedIn, Instagram, X, Unstop, and other student networks, with a combined digital reach that continues to grow through event-driven content, collaborations, and word-of-mouth buzz.
